

Puppy budget worksheet

Compare three budget scenarios using your own quotes. Download an editable CSV or print a blank worksheet.

Fill this PDF in a compatible PDF reader, or print it and write by hand. Save a copy to keep your answers.

Amounts are USD. Enter annual amounts unless marked monthly or per visit. For each scenario: one-time and annual costs + 12 x monthly costs + grooming price x visits. Add the reserve separately.

Cost / quantity	Lean	Expected	Extra room
Puppy purchase			
One-time supplies			
First-year vet care			
Training			
Boarding / sitting			
Other annual costs			
Food / month			
Insurance / month			
Supplies / month			
Grooming / visit			
Visits / year			
Contingency reserve			
First-year total			

Puppy budget worksheet

Before you finish

- ☐ Collect local quotes for recurring services.
- ☐ Separate one-time costs from monthly costs.
- ☐ Include training, boarding, and replacement supplies.
- ☐ Decide how much contingency to set aside.
- ☐ Revisit the plan when you have actual quotes.

Blank amounts start at zero. These are planning inputs, not local price benchmarks or financial recommendations.
